Grand Stand to Begin at Once. Grand Stand to Begin at Once.

In spite of the continued winter weather, the directors of the Sait Lake Baseball citib are going ahead with preparators for the opening of the season. The first task they have is to get the diamond down at Waker's field in decent shape, and the work was commenced yesterday when a force of men were given the job of draining te diamond ad making soundings for solli ground. The field has looked something like a lake for the past several months, and it is a big job to dry it thoroughly. In addition to repairing the diamond, a great deal of work will have to be done on the grandstand, and a new one will practically be built before the impire cross "play ball!" It is the pur-

CHANCE FOR MEREDITH. Local Club Has Strong Hopes of Securing Fast Southpaw.

It may cause some surprise among local fans to hear that the Salt Lake club stand a good chance of securing the services of Elmer Meredith, the speedy little southpaw, who played here for Salt Lake. It will certainly be good news, for we have never had a more popular pitcher here. The management of the club does not care to state just what "is doing" in this direction, but the assurance has been given that we stand a real good show of getting Elmer's signature to a Salt Lake contract.

San Francisco, March 23 .- Four favor-San Francisco, March 23.—Four favorites and a second choice won at Oakland today and the public had a very profitable session. The surprise of the afternoon was the defeat of Celebrant. He was thought to have the last race at his mercy, and 7 to 10 was the quotation. Away well, Spencer rated the coit and did not make his move until the stretch. He closed rapidly on the extreme outside, but could not catch Gateway, who beat him in a drive.

RECORD BREAKING CROWD. Attendance at Friday Night's Fight Will Represent About 40,000.

San Francisco, March 23 -Nearly all of

San Francisco, March 23.—Nearly all of the 7,864 seats in the remodelled Woodward's pavilion have been sold for the contest Friday night between Young Corbett an dJimmy Britt. The attendance will certaintly not exceed 8,000, as the police will refuse to permit standing in the aisles, and there is a prospect of several thousand persons being turned away. The attendance will represent between \$35,000 and \$40,000.

Britt is close to weight ad tapering off in his weight. Corbett is evidently a little over weight as usual, judging by the character of the work he has been doing today. The betting today fluctuated from 10 to 7 to 10 to 6, with Corbett at the large end. There was more Corbett coin in evidence than from the other side, and it is possible that the champion's backers may have to offer 2 to 1 in order to secure takers.

The local club had no intention of playing the Nationals here for the good and sufficient reason that it would be impossible to play on the local diamond unless each player were provided with a steam launch. The same condition of affairs exist at Ogden, and the Nationals will not play there, either.

"The Unwelcome Mrs. Hatch" drew wo fair sized audiences at the Theater yesterday afternoon and evening, though there was not the interest evident that the play was greeted with on its first production here. The story has been fully reviewed in the "News" before, and at this time it only needs to be said that the company renders is as well as ever, if not better. The play is one that leaves a disagreeable im-pression on its audience, and it is doubtful therefore if it can ever be pop-ular, well as Miss Roberts renders it. Tonight the engagement closes with a production of the old English comedy "The Country Girl," re-named by Miss Roberts "Peggy Thrift."

> Ward Entertainments.

In spite of the storm, the Eighteenth ward hall was packed last night, many people standing throughout the per-fomance. "Fanchette," the operetta written by Miss Margaret Whitney, and most of the music composed by her, achieved emphatic success. The young author, a child of 14, waved the baton over the whole production, and over Prof. Giles at the pianc. She was smothered in flowers by her young friends at the end of the first act, and had to come before the curtain and respond in a neat speech. The little story is charmingly set to music, and several of the numbers, especially the several of the numbers, especially the opening and closing choruses, were specially tuneful. Miss Blanche Squires as Fanchette, did the principal vocal work of the night. Rebbie Morris, the marquis, also sang sweetly. Lawrence Clayton the only boy in the cast, sang and acted his comedy part well, while the two scheming maids were prettily played by Nan Clawson and Rehan Spencer. The hits of the night were made by the Whitney twins. night were made by the Whitney twins, Paul and Virginia, aged three, and Kenneth Bourne, aged four and a half, All had encores galore. The other parts, and the chorus work, were in the hands of Lynne Knowlton, Neil Giles, Bur-dette Clawson, Corneel James, Juliet Knowlton and Lucile Van, all of whom acted and sang with excellent spirit.
The piece was so undoubted a success that it is sure to draw another heavy audience at the final perfc.mance tonight.

SAN PEDRO WORK IN CALIFORNIA.

Mr. Cutler Returns from Visit to Los Angeles and Tells of Progress.

INTO NEVADA BY NEXT JUNE.

The Company Has 650 Men Working And Over 1,000 Head of Stock.

Herbert R. Cutler has returned from a month's visit in Los Angeles. Mr Cutler says southern California is still short on rain, and the season's rainfall at the date of his departure amounted only to three inches, when it should have been much more. However, there is a general activity down in that country that is encouraging, especially as regards the progress of the Salt Lake road. Mr. Cutler reports work trains running to 50 miles out of Daggett, and track laying will shortly be in progress beyond this at the rate of a mile a day. The Mojave canyon tunnel is 40 per cent completed, and excavation is being pushed night and day. Mr. Cutler was told that the Nevada line would be crossed at a point 125 miles from Daggett, and that point is to be reached by June. The Kessler Summit-State line grade is expected to be finished in 30 days, a distance of 34 miles. The company has 650 men working on the California end of the line, and over 1,000 head of stock. Mr. Cutler was informed that no fears were entertained because of the heats of the approach-ing summer, as the worst points have been passed and Kessler Summit is 4,209 feet elevation, towards which the line

Stella Neff. THE SALTINESS OF THE DEAD SEA.

What makes the Dead Sea salt is a question that has been discussed for centuries, and the most recent explanation is that advanced by William Ackroyd, who assigns as the most important cause the atmospheric transportation of salt from the Mediter-ranean Sea. Previously it has been as-sumed that the saltness of this historic body of water was due to the soil and rocks, which, it is now thought, would not be able to furnish the amount required, and that the Dead Sea was once a part of the Red Sea, which had been cut off by the rising of Palestine and concentrated by evaporation, a hypothesis which is not supported by facts. According to Ackroyd's theory the winds blowing from the Mediterranean would bring rain charged with salt. In

proof of this it is stated that the pro-portion of chlorin of bromin is the same in the Dead Sea that it is in the
